

YOUR LIFE IS IN YOUR HANDS

with **Elijah Nisenboim**

Wed. Sept. 15

7-9p

\$20

You are invited to an evening with Elijah Nisenboim, Spiritual healer, guide, and reader. Elijah will discuss how your hands and fingerprints reveal your life purpose and the keys to unlocking its potential. This will be a highly energizing, fun and deep experience.

Palmistry is ancient science that looks at all aspects of the hands to discern various characteristics and patterns found in the personality as well as the events that have shaped us. Throughout our life the shape of the hand, the lines, markings, and fingers change as we change.

The fingerprints go on the hand five months prior to birth and never change. They reveal your life purpose and what your lessons and challenges are to achieving it. Fingerprints express the psychology of your Soul, which takes place regardless of life circumstance and experience. Knowing this helps us to find our lessons and opportunities in all of life's circumstances.

Elijah Nisenboim learned to read hands and fingerprints from the International Institute of Hand Analysis in 2002. After giving 2000 sessions in Breath Work, Elijah developed his own method of using the breath, called the "Effiji Breath Technique". In 1999 he met John (Firdousi) Wyrick and began to study and use his system of identifying and clearing archetypal patterns held in the light body. Working as a healer for 20 years, Elijah has given over 10,000 private sessions and combines all the various divination systems he has learned to create an original style and way of helping people on their life's path.
